Patrick

Sand Hills State Forest

Welcome!

Hello Everyone! South Carolina welcomes you for the 2019 running of the Sandblast Rally. The roads are prepared to challenge your skill and vehicle to see who can arrive back in Cheraw in the best condition with the fastest time. I want to extend a special welcome to the new competitors with fast motorcycles and cars that will be joining us this year. I am looking forward to seeing all of you on these challenging and fun roads. Competitors should come prepared to run at least one of the stages in the dark as daylight savings time will not have taken effect during the running of the rally.

Traditionally, Sandblast rally has served the grassroots competitor and this has not changed. We have a simple pricing structure so the number in these regulations is the number you pay at checkout. We have also included shakedown for all entires. Please check out the rally guide for additional information about the community and the event.

Be sure to thank the volunteers because without them none of this is possible. Many of them come from the local area which has been supporting this rally for over 20 years. Feel free to ask questions as you prepare for the event and travel to South Carolina. See you on the stages.

Andrew Frick

The entry application will only be accepted through the official online entry form and accompanied by the total entry fee. Your entry will only be secured with payment in full.

Reserved Entry is available to those who attended the event last year or attended the most recent event in the Atlantic Rally Cup (Empire State Performance Rally) as a kind of 'loyalty discount'. The Reserved Entry fee will only be available to those competitors who have paid before the Reserved Entry period ends.

The Early Entry fee will only be available to those competitors who have paid before the Regular Entry period begins. The Regular Entry fee will only be available to those competitors who have paid before the Late Entry period begins. Submitting your online Entry Form early without payment will not suffice.

Entering and withdrawing are the only actions available. Entries are not transferable to another person or entity. Entry fees being refunded will not be held until next year nor are the fees transferable as a credit toward another rally.

3.3 Event Cancellation

The organizers reserve the right to cancel the event if insufficient entries are received before the Early Entry Deadline.

3.4 Number of Entrants Accepted

Initially, 50 entries will be reserved for cars and 50 entries will be reserved for motorcycles. When Regular entry begins, these reserves vanish. A total of 75 minutes worth of vehicles will be accepted, with each motorcycle counting as 30 seconds.

3.5 Eligible Classes

For the Atlantic Rally Cup, AWD and 2WD will be scored, excluding Super Open\Exhibition class. Super Open\Exhibition class is not eligible for ARC points. All other entrants participating will receive driver points in the ARC.

The following car classes will be scored although they do not count toward a championship:

Open AWD Heavy	Open 2WD Heavy
Open AWD Light	Open 2WD Light
Super Open\Exhibition	

For the Atlantic RallyMoto™ Cup, the following motorcycle classes will be scored:

Heavy*	Dakar
Medium	Light

*NOTE: Novice competitors **must** receive approval from the organizer to enter RallyMoto Heavy Class. The Adventure class will be scored at the event, but will not receive championship points.

3.6 Entry Fees

	Car Regular Price	Car with 2WD Discount	Moto
Reserved Entry Fee	\$630	\$590	\$270
Early Entry Fee	\$675	\$635	\$290
Regular Entry Fee	\$775	\$725	\$370
Late Entry Fee	\$875	\$825	\$420

Shakedown participation has been bundled with the entry fee. The above prices are all inclusive and include the \$180 mandatory Jemba stage notes for cars as well as all processing fees.

3.7 Entry Paperwork

For an entry to be considered complete, the following must be submitted:

- the entire entry fee
- all driver information online form
- all navigator information online form
- all rally vehicle information online form
- all service crew information (as needed) online form
- all service vehicle information (as needed) online form

Please note that for the entry form to be complete, you must have your NASA membership and NASA Rally Sport competition license numbers and these must both be valid. Please help our registration go smoothly and take care of **your** paperwork before you arrive.

Photocopies of your rally competition license, your NASA membership, and driving license are not required for entry. You are required to present your state-issued driving license for verification at the on-site registration if you have not uploaded it to your account. Vehicle insurance documents are not required at registration.

Competitors will be required to sign a registration and insurance waiver, a standard liability waiver, a property damage waiver, a media authorization, a HIPPA waiver and a stage note disclaimer at the on-site rally registration.

3.8 Payment

Make checks payable to:	Sandblast Logistics
Mail payment to:	Andrew Frick, Organizer Sandblast Rally 2 Covington Rd. Greenville, SC 29617
Do not send mail that requires a signature!	
Online Credit card payments:	my.NasaRallySport.com

Cash, credit cards, and checks will also be accepted at the event registration.

3.9 Refunds

All refunds will be issued by check following the completion of the event. Checks will be mailed the Friday following the event.

- Entry fees shall be refunded in full if the event is canceled by the organizer.
- Entry fees shall be refunded in full if the organizer refuses the entry.
- There are no refunds after the competitor has started shakedown or left the first time control.
- When the competitor withdraws prior to the race, the refund amount depends on when they withdraw and when they paid. The philosophy behind the lower price for Early and Reserved entry fees is that these are a two way commitment, trading the commitment of the organizer to put on the event with the commitment of the racer to attend the event. Early and Reserved entry fees therefore refund a smaller proportion of their payment when the commitment is exited.
- In all cases, processing fees will not be refunded or included in any refund calculations. For cars, the \$180 for stage notes is non-refundable and will be deducted before refund calculations are completed.
- Refund amount:

Withdrawing when:	Paid Reserved or Early	Paid Regular or Late
10 days (240 hours) or more before registration opens	Refund is 50% of entry fee paid	Refund is entry fee minus \$75
Between 10 and 3 days (240 to 72 hours) prior to registration opening	Refund is 45% of entry fee paid	Refund is entry fee minus \$150
Three days (72 hours) or less before registration opening	Refund is 40% of entry fee paid	Refund is entry fee minus \$200

- The last opportunity to withdraw your entry is prior to registration and scrutineering.
- Twenty percent of the entry fee shall be refunded if the competitor does not leave the first time control, unless the reason for them not being able to compete is self-inflicted, in which case they are not eligible for a refund.
- Entry fees will not be refunded for any competitor/team who is required to attend the Novice Competitor Orientation, fails to attend, and then wants to start the rally.
- In all cases, entry fees will be refunded by check in US Dollars.
- Refunds will be sent out after the rally is over.

3.10 Accepted Memberships

All competitors, without exception, must hold a NASA Rally Sport membership.

3.11 Accepted Licenses

The driver, navigator or rider does not have to be present at Scrutineering; however, their helmets, driving suits and all other safety gear must be examined at the same time the vehicle is examined.

13 Shakedown

13.1 Participation

Competitors who have completed registration, scrutineering, and the Novice Competitor Orientation (if required) may participate in the shakedown stage. Helmets, suits and all other safety gear is required. Some teams may be asked to carry a passenger for a publicity run of the shakedown stage.

13.2 Location

The shakedown stage will be located at Winery Road between Chesterfield and McBee, South Carolina. The shakedown stage is curvy and approximately 1.7 miles long. Using this road will prevent us from putting ruts in stages that will be used the following day. After completing the stage, it is roughly 5.1 miles to drive back around to the start. Overall transit distance is about 22 miles from registration.

Service vehicles are not allowed at the start or finish of the shakedown stage. There is a small service park provided at The Curve bar, maps and directions are provided in the Rally Guide. This service area has limited space for the size of the field that we have at this rally. It is strongly encouraged to leave trailers at your hotel or in downtown Chesterfield, treat this as a remote service.

When each team is finished participating in the shakedown stage, their rally vehicle must report immediately to the Parc Exposé as in Section 1.7. ***Failure to attend will result in a one minute penalty.***

13.3 Times

Friday, March 1: See schedule for times.

13.4 Participants

No service crew members or spectators may participate in the shakedown stage by riding in a vehicle. Please note that the shakedown stage is used for publicity: rides in rally cars are sometimes arranged for event sponsors and town officials. Some teams will be approached and asked to provide rides for a mayor, police chief, or an event sponsor. Please understand that this sort of activity is paramount for continued close relations with the town and forest that allows use of their roads. These riders may need to borrow helmets. The ride with a sponsor should be at 60-70 percent of testing speeds, and viewed as a ride, not an opportunity to test.

13.5 Spectator Opportunities at Shakedown

One spectator area will be available at the shakedown stage. All persons who go to this spectator area must sign a waiver. Spectators will be allowed within the designated and taped area only. Any team members or crew traveling outside the designated and taped area will incur a one minute penalty.

13.6 Directions to Shakedown

Directions to the Shakedown stage and service area are located in the Rally Guide.

Any crew failing to comply will be liable to a sanction at the Stewards discretion. The crew should complete the form and turn it into a rally official.

15.7 Re-Starting

As the rally is contained within a single leg, there are very limited opportunities for returning a vehicle to the field. The only point at which any reentry will be considered is at a service. The vehicle must be re-inspected by the Chief Scrutineer and approved by the Stewards and the Clerk of the Course. The vehicle will be scored as Did Not Finish (DNF). The vehicle will no longer be a competitor.

Competitors will be re-inserted relatively close to their previous position. Any competitors who have re-started must not pass any other competitor (excluding disabled or stopped vehicles) upon pain of a \$200 fine (paid to NASA Rally Sport) which must be paid before the Chief Scrutineer will return their logbook. Sweep will not wait for re-started teams to reach a maximum lateness time as the teams are already scored as DNF.

15.8 Stage Note Disclaimer

The stage note system uses an automated computer program to generate a description of the special stage road using sensors fitted to a vehicle driven through each stage. The Stage Notes are intended for use without reconnaissance. They describe the route in more detail than the Road Book. The use of the Stage Notes is a direct contract between the competitor and P-Sport, Inc., with the organizers involvement being limited to authorizing the use and facilitating the preparation and distribution on behalf of P-Sport, Inc.

15.9 Power Stage

In accordance with the NASA Rallysport National Championship the final stage of the rally will be considered a power stage for the cars. The winner of the stage will automatically qualify for the 2019 National Championship. Before the final stage the top ten cars on the road will have their order reversed during the 6A reseed control, these will be considered the Power Stage qualified cars. All cars will run the final stage with standard 1 minute gaps. If a faster seeded competitor catches a slower seeded competitor (for example, due to a flat or loss of power), it will be considered force majeure.

After the STOP control at the end of the stage the team posting the fastest time will be asked to park in a designated area and await the results of the trailing competitors. If a following "Power Stage qualified" car posts a faster time they will be replace the car who previously had the top time. If a Power Stage qualified car posts a slower time or is replaced as the current fastest car that car will proceed on the transit to the finish of the rally. This process will repeat until the final winner of the power stage is determined.
